

Dear Sir/Madam,

As a pupil within Mrs. Hill's classroom I have been one of many who has benefitted from your kind investment. Such an investment has left a positive impact on our learning environment and has benefitted my peers and I. The flexible seating we have been granted in Mrs. Hill's class has been a day to day aspect of school life we do not take for-granted. As a result of flexible seating, we have been able to sit with friends, keeping us in a great mood whilst also sparking our scientific discussions. For those of us who are visually impaired, they've been able to relocate and find a spot in the room where they can stay engaged. We've been very thankful for your investment and for the way we have benefitted from it.

Sincerely,

Sincerely,  
Riley Finger
