

Earth Day

Have you ever heard of Earth Day? Earth day happens every year on April 22nd and is a day to bring attention to the importance of keeping our planet clean. Some important things about Earth Day are, where did Earth Day start, what are some ways to celebrate Earth Day and why the 22nd. Earth Day is a day to be kind to earth.

First, One thing I know About Earth Day is that Earth Day was started in Wisconsin. Another thing I know about Earth Day is that the first day it was celebrated was in 1970. My evidence is that in the text it says a senator from Wisconsin organized a national demonstration [Earth Day] to raise awareness about environmental issues.

Next, Earth Day is not the only special day on the 22nd there is also Arbor Day. Earth Day also happens to fall between Spring break. My evidence is that in the text it says that it seemed natural to combine the two civic observations to make a special day [Earth Day]. This is why Earth Day is celebrated on the twenty second.

Then, Two ways to celebrate Earth Day are picking up trash and recycling. In the text it says picking up trash and recycling is a way to celebrate and support Earth Day. These are ways to celebrate Earth Day.

In conclusion, Earth Day is a day to support and be careful to the earth. Some important things about Earth Day are, where did Earth Day start, what are some ways to celebrate Earth Day and why the 22nd. Earth Day is a day to be kind to earth.
