## **\$286.00 - Estimated/ Donated**

---

Amazon purchase- \$306.48

Invoice 1- \$186.43

Invoice 2- \$47.69

Invoice 3- \$32.80

Invoice 4- \$39.56

## **Outcome:**

---

Students were given additional reading material through this grant. We purchased novels, series, and other books that the students recommended. Many of the titles were duplicates so that the students could read the novel with a friend. This gave students peer motivation and additional time spent with their friends, sharing stories and ideas. Overall, the students were given fresh, relevant reading material that elevated their classroom experience and opened up their worlds. Thank you for your generous donation.

## **Goal**

---

Fill the classroom library with engaging books that students can read and share. Enhance vocabulary, comprehension, and literary dialogue.

## **What will be done with my students**

---

Students will access new books and share their passion for literature with their families, peers, and reading buddies.

## **Benefits to my students**

---

Students will feel equipped with materials to read the best classic and modern literature. Their worlds expand, their perspective changes, empathy grows, self awareness increases. They have alternatives to screens.

## **Budget Narrative**

---

Each item is a book for students to read. Several are series of novels that they have asked for by name. These books will go directly in my classroom library to share with students. Thank you!
