

Thank you for supporting our classroom and helping us to make learning hands on! We have been able to add fun into each month. We were able to buy owl pellets and the students were able to dig in and learn all about what is inside. They wore goggles, lab coats and gloves. They said, "it was the best day ever." During our math review day we turned the classroom into a glow day. The students then told us, "it was the best day every." As you can see enhancing their learning makes everyday the best day ever! Thank you for making learning so real for us and for them.

A big thank you from Mrs. Matos, Mrs. Campanile
and all of us at Vineyards Elementary School!
