What was your favorite part of the Honor Flight? Why? *

My favorite part of the honor flight was getting to experience the day with my veteran, he was such a sweetheart, I got to learn all about his life, and it was nice seeing all his reactions to the places and things we did, he was so excited to see it all, and it made me happy that I could accompany him on such an exciting day.

What was your favorite activity/location visited while participating in the Honor Flight? *

My favorite activity was watching the changing of the guard, it looked so neat, precise, and well rehearsed, made me want to do the same one day.

What impact did the Honor Flight have on your view of veterans? *

It made me appreciate the veterans more than I did before, there's only so many of them left from WW2, or Korea and they should not be forgotten, kids my age usually don't see their value, but without them who knows what could've happened. The lucky ones who survived should be appreciated.

What was you favorite part of the Honor Flight? Why? *

My favorite part about the Honor Flight was the welcome back celebration everyone had planned for the Veterans. I believe it was really thoughtful of them to not only give them a whole day to see what they have created for them, but celebrating it in such a wonderful way that they can truly enjoy. This also shows them that we care a lot about them showing them that we recognize them for what they have done for us and we support them a lot.

What was your favorite activity/location visited while participating in the Honor Flight? *

My favorite location was the World War Two Memorial this was my favorite part, because it was incredible to see the view everyone had and the picture that we took with the group. It was a site that was well cleaned. It also showed so much respect for the veterans themselves too with the quotes that were also engraved on the wall.

What was your favorite part of the Honor Flight? Why? *

Experiencing and gaining knowledge during honor flight from a veteran was my favorite. Hearing the stories and memories was the best.

What was your favorite activity/location visited while participating in the Honor Flight? *

My favorite location was the Lincoln Memorial, it was so gorgeous. When you looked out you saw the whole mall. It was unrealistic. To be able to experience that with a veteran, that's the best.

What impact did the Honor Flight have on your view of veterans? *

The impact it had on my view of veterans, is many veteran have been through a lot. They are NOT appreciated enough for their service. I wanted to make my veteran feel thanked, and I made sure that happened. I thank all veterans for their service and I sure enough respect veterans.

What was your favorite part of the Honor Flight? Why? *

My favorite part was getting to experience the memorial with the veterans, and seeing how much it meant to them.

What was your favorite activity/location visited while participating in the Honor Flight? *

The changing of the guard

What impact did the Honor Flight have on your view of veterans? *

Veterans appreciate it when you thank them to their service. That was something that I didn't do before but have started doing ever since the honor flight.
