

Thank you for supporting our classroom and helping us make our vision a reality. With your help and support our students are learning to love and appreciate the natural world around them. Our garden has been such a great opportunity for the students to learn and for us to teach on a level that allows all of our passion to be poured into the best learning environment. Your generous heart and giving spirit has placed smiles on the children's faces and hearts that will last a lifetime.

A big thank you from Mrs. Matos, Mrs. Campanile  
and all of us at Vineyards Elementary School!
